Notice of discontinuation of SV-PL, SV-PLSS series production

Dear our valued and respected customers:

With this letter, we regret to inform you that our company has made the decision to discontinue the production of filter products under SV-PL, SV-PLSS series.

We apologize for any inconvenience this may cause, and we would like to provide you with the following details regarding this decision.

【Reason for discontinuation】

Due to the rising materials and labor cost since the year before last, the cost of production has been increased significantly. In addition, we are also being informed that the supply of some of the models is going to be suspended. As a result, we have come to the conclusion that the continuance of production of these impacted models will be unfeasible, therefore we have decided that the production of the below series will be discontinued by the end of 2023.

【End of Life Products】 SV-PL, SV-PLSS Series

※ Please refer to the list on the next page

【Discontinuation Date】 End of December 2023

(will be end of life as soon as our stock runs out)

【Replacement Models】 SV-PLA Series

Kindly find the list of products that will be discontinued as of December 31st, 2023, and their relative replacement models in the next page.

<Features of SV-PLA Series>

- Size, overall length, and main body length of each model will adopt a unified shape (design).
- Each size has 120° x 3 holes for set screws as standard.
- Customer will be possible to customize the application depending on their needs by using the standard screws (set screw x2, lock screw x1) that will be packed together with the products .

If you have any questions or concerns regarding the discontinuation, you are encouraged to contact your sales representative for more details.

Thank you for your patronage, and we appreciate your continuous support of our company.

Sincerely,

K-takahashi
